

Our Purpose: Fueling Creative Culture in Schools

Creating equitable student outcomes requires an innovative culture, one in which creative thinking and ongoing learning are *how* the team works together to reach its goals.

A professional culture of creativity & continuous learning...

Boosts educators' belief in their ability to create new solutions.

Energizes the team with shared purpose.

Fuels school change toward equitable student outcomes.

Status Grow Learning can help you cultivate a culture like this.

We provide leaders with a fresh way for their teams to routinely experience creativity-sparking learning in the place it matters most: their schools.

When learning together is a faculty routine, creative culture strengthens.

That's what Status Grow Learning is about.

Our Approach:

Status Grow's approach stems from a belief that opening up educators' creative potential leads to better outcomes & experiences for kids. This happens when educators have:

- A clear vision of the engaging, equitable learning experience they aspire to create.
- Easy, regular access to fresh ideas from the field to spark thinking.
- A work environment intentionally designed to foster creativity and continuous learning about what works for their students.

Our unique approach to creative professional learning is...

Baked-In.

Our tools, resources & support are woven into your core work and context, to meaningfully and centrally boost your team's work toward your goals.

Easily Accessible.

We bring inspiring ideas and experiences directly to you and your team, so you can efficiently and capably infuse faculty time with creative energy & learning (whether in-person or virtual).

Uplifting.

Our approach integrates design methodology, deeper learning practices, and insights about what motivates adult learners to ensure *how* your team learns is as energizing as *what* your team is learning about.

Our 2020-2021 Services

Our offerings are designed for the current context: they target common needs schools have during the pandemic, and work in both virtual and in-person settings.

Custom-Designed Innovation Cycle - Engaging, Equitable Instruction

<p>Description: We design innovation cycles to turn your existing faculty time into learning time, based on your school context & goals. An innovation cycle is a creative, design-based process. Innovation cycles focus on elements of engaging, equitable instruction aligned to your school goals (ex: setting students up to successfully meet standards through a cycle of instruction).</p>	<p>What We Provide: Custom-designed, creative professional learning tools & processes Inspiring, digestible ideas & resources from the field, curated specially for your team's focus Efficient, virtual coaching to get you ready to facilitate the cycle</p>	<p>Innovation Cycles Help You: Generate, test & share new instructional approaches, aligned to your school goals Actively build shared understanding of your vision Boost your faculty's creative energy & jumpstart creative culture</p>

Vision Quest- School or District Leadership Teams

<p>Description: The quest is a discovery process designed to answer these big questions: What's possible for our students to achieve, experience and become at school? What assumptions do we hold, and how do those impact the opportunities we provide our students? What's working well in our school, and for whom? The vision quest is inspired by research and discovery processes used in other sectors, and draws on equity and design methodology to lay critical groundwork for rethinking how you do school.</p>	<p>What We Provide: Facilitation & coordination of the Quest (Flexibly scheduled sessions) Equitable design-based tools & processes for reflection, empathy, evidence-gathering & knowledge-building Ideas & research from the field to help you build knowledge and get inspired</p>	<p>Vision Quests Help You: Gain deeper understanding by viewing yourselves, your students & your current state through fresh eyes Clarify student needs & motivations Codify your team's beliefs about learners and establish a collective, inspiring learning vision Get your team ready for equitable redesign work by building habits, mindsets & creative energy</p>

Design Sprint- School or District-wide Structures & Processes

<p>Description: The design sprint process enables you to generate new approaches & quickly learn whether they are worth building out and scaling. The sprint focuses on a design challenge derived from your school/ district goals & from specific student needs you uncover. This equitable design process involves generating, building, & testing ideas to learn.</p>	<p>What We Provide: Facilitation & coordination of the Sprint (Flexibly scheduled over 1-4 weeks) Tools & processes for knowledge-building and design Support for sprint preparation & pre-work (e.g., evidence-gathering & synthesis)</p>	<p>Design Sprints Help You: Begin to develop new school/ district-wide structures or processes to serve students more equitably Quickly learn which approaches are worth building out and scaling up Learn creative methods for developing and initiating changes</p>
